OGWA 2010: Highlighting the Rapid Growth of Oman's Oil & Gas Industry

With exploration activities now in full swing and with the implementation of various measures to significantly boost production, the Sultanate of Oman is pushing ahead with the full development of its oil & gas resources.

After marking over 40 years of oil exports to other countries, the sultanate is making huge investments and working closely with international oil & gas firms to enhance its total production output from 710,000 bpd in 2007 to as much as 900,000 bpd by 2011. Oman's natural gas production, which has been growing steadily over the years, is likewise expected to further increase as major gas fields come on stream within the next five years.

The Oil & Gas West Asia (OGWA) 2010 Exhibition and Conference will be a platform for showcasing the operations of the oil & gas industry in Oman as well as a forum for discussing the latest developments and future directions of the industry. Held under the patronage of the Ministry of Oil & Gas since 1998, the three-day biennial event is now on its seventh edition and has built a reputation as one of the established oil & gas shows in the Middle East region.

As before, OGWA 2010 will once again feature all leading companies that play a key role in the continued development of the region's oil & gas industry. With the participation of national oil & gas companies in the GCC and international oil & gas firms, the event will truly be a major gathering of industry professionals from within Oman and from other parts of the world. Be part of it!

The OGWA 2010 Exhibition: Showcasing Oil & Gas Operations, Equipment, Technologies and Services

The market for all requirements of the oil & gas industry in Oman is growing rapidly as a result of intensified exploration activities throughout the country, accelerated production efforts, and the continued expansion of the sultanate's oil & gas infrastructure. By showcasing every aspect of the oil & gas industry, the OGWA 2010 exhibition will thus be an excellent opportunity to companies that are involved in any of the following:

- artificial lift technologies
- communication systems
- computer systems and software
- construction equipment/services
- corrosion control
- design and consultancy
- drilling equipment and services
- electrical and lighting systems
- engineering services
- environmental protection systems
- exploration and production
- gas processing systems
- gauges, meters and indicators
- geological/geophysical services
- inspection and testing services
- instrumentation and controls
- logging equipment and services
- marine equipment and services
- measurement and calibration
- oil & gas transportation systems
- oilfield equipment and services
- onshore/offshore technologies
- petrochemical technologies
- pipes and fittings
- project management
- pumps and compressors
- refining technologies/systems
- safety equipment and systems
- seismic/oceanographic systems
- training services
- valves, tubes and fittings
- water treatment
- well servicing and testing
- wellhead equipment

Major Reasons to Exhibit at OGWA 2010

- Introduce your new products, equipment and services directly to your target clients.
- Interact with a large number of industry professionals and establish new business contacts.
- Meet senior executives and decision makers from leading oil & gas companies in the region.
- Be updated on the latest developments in the industry and explore existing and emerging opportunities.
- Strengthen your company's presence in the industry by raising awareness about your products and services.
- Network with industry peers and identify potential business partners, agents and distributors.
- Recruit new talents to serve your requirements.

The OGWA 2010 Conference: Focusing on Present Challenges and Charting the Industry's Future

Held in conjunction with the exhibition, the OGWA 2010 conference will discuss the latest developments, opportunities, challenges and other major issues shaping the future of the oil & gas industry in Oman and in the wider region. It will feature high-profile speakers and well-known personalities within the industry, making it a must-attend event for all industry professionals.

As in 2008, the OGWA 2010 conference will be organised and managed by the Society of Petroleum Engineers (SPE), thus ensuring the quality of the technical presentations as well as the relevance of the topics discussed in the face of energy realities in the Middle East.

The previous OGWA conference attracted a total of 347 delegates representing 100 companies from 29 countries worldwide.

Register early for the OGWA 2010 conference! It's an event that you simply cannot afford to miss. Further details including the full conference programme will be available in due course at www.ogwaexpo.com.

Major Reasons to Attend the OGWA 2010 Conference

- Learn about the latest strategies now being implemented to address the range of challenges facing the industry.
- Meet your fellow industry professionals and engage in constructive and enlightening discussions on the industry's future.
- Get up-to-date information on the available technologies and systems that are currently used in the industry.
- Listen to the presentations of experts and enhance your professional and technical competence.
- Be informed about the latest developments in the industry and discover new leads for major business opportunities.

OGWA 2008 Highlights

The previous edition of OGWA featured the stands of more than 230 companies from over 20 countries. Both the exhibition and the conference attracted the participation of a large number of industry professionals from within Oman, other GCC countries, and from other parts of the world.

Book Your Space Today

Space Rates and Options

Space Only (minimum: 18 sq.m.) - US\$340 per sq.m.
(Space-only bookings are for exhibitors who want to design and build their own stands)

Shell Scheme (minimum: 9 sq.m.) - US\$395 per sq.m.
(Shell scheme includes white panel walls, fascia and name-board, carpeting, fluorescent lighting, a desk and two chairs)

About the Venue

Established in 1985, the Oman International Exhibition Centre (OIEC) is the ideal venue for major trade fairs and exhibitions in the Sultanate of Oman. It offers 12,000 square metres of indoor exhibition space with enough parking space for over 2,500 vehicles. It is conveniently located near Muscat International Airport and is just a short ride away from the city centre of Muscat.

Sponsorship Opportunities

Serving as a sponsor of OGWA 2010 can greatly add value to your participation in the event and set your company apart from the other exhibitors.

Main Sponsorship Options

- Platinum Sponsor
- Gold Sponsor
- Silver Sponsor
- OGWA Reception Sponsor
- Oilman's Lunch Sponsor

Other Sponsorship Options

- Visitor Badge Sponsor
- Visitor Bag Sponsor
- Floor Plan Sponsor
- Business Centre Sponsor
- Coffee Lounge Sponsor

Each type of sponsorship carries a wide range of exciting benefits for your company.

About the Organiser

Omanexpo LLC is the pioneer in the events industry in Oman with over 20 years of experience as an exhibition organizer and event management company. In addition to Oil & Gas West Asia (OGWA), our major events include Food Expo, Motor Show, Interiors & Buildex, Women Expo, the Eid Festival, MedHealth & Wellness, and Hotel Oman.
